Forecast for Wednesday 13 Nov 2024

Weather: A chance of some early morning fog patches around the foothills. Most if not all staying dry and seeing occasional brighter spells developing through the day. Cloud increasing late in the day to bring the risk of a few isolated light drizzly showers.

Chance of cloud-free hill tops above 600m: 75% becoming 50% for evening.

Low cloud and visibility: Good becoming moderate or poor in any showers, very poor within cloud with bases down to 600m at times, particularly late evening.
